

REASONS TO Study Abroad

DURING YOUR COLLEGE CAREER

LANGUAGE SKILLS

Fluency is best achieved by immersing yourself in the language and culture. Developing communication skills will give you an advantage in the competitive workforce.

CULTURAL AWARENESS

Studying in a country other than your own will give you a better understanding and appreciation of different cultures, which will help make you more globally aware.

NETWORKING

You will most likely meet other students from the U.S. and from your host country which will give you networking skills and possibly life-long friends.

PERSONAL GROWTH

Going abroad is a great way to become more independent. Adapting to a new country will help you build problem-solving skills that will benefit your career and life.

AND SO MANY MORE!

Barcelona, Spain

Kayaking in the estuary
Bilbao, Spain

Running of the Bulls
Pamplona Donostia, Spain

"The Puppy"
Bilbao, Spain

Valley Viewpoint
Toledo, Spain

CHOOSE Bilbao

WHY?

Here are some reasons that we think you should choose to study at the University of Deusto in Bilbao, Spain.

It's safe

Sure, Barcelona and Madrid are bigger than Bilbao, but they are also full of tourists, which means pickpockets. According to Pew Research, Bilbao is the safest autonomous community in Spain and is one of the safest cities in Europe.

It's affordable

With the help of the Education Abroad office, you can qualify for study abroad scholarships, national scholarships and student loans. You can even apply your refundable UNL scholarships towards the program!

It's the perfect amount of time

The University of Deusto offers programs all-year-round. Choose between two programs: Language & Culture or Spanish & Business. Decide how long: a year, a semester, or a six-week summer program.

It's got something for EVERYONE

From family attractions to nightlife, Bilbao has everything you want. You can find art museums, beaches, mountains, water sports, bike rentals, a soccer stadium, restaurants, shopping, clubs and bars!
